

SERVICE OFFERS

Adapt and respond to rapidly changing business needs.

You're equipped to support the typical course of your business and can plan and staff effectively for the usual workloads. When a surge in growth, a spike in customer demand, or large-scale project challenges your team's capacity or skill sets, your ability to quickly and flexibly respond is vital to your organization's success.

Increase business agility by leveraging a flexible, temporary workforce that allows you to staff up or down at a moment's notice.

"NSC is an excellent source for our staffing needs. They are a consistent and effective resource for our workforce, allowing us to improve our time management and increase productivity, while reducing our overhead on recruiting and labor costs."

Executive Vice President, Large Automotive Facility

COMMON CHALLENGES

Bandwidth constraints to support variable workloads

Difficulty finding qualified talent to fill the job

Need for highly skilled resources in a specific function

High costs of recruiting and onboarding resources—when capacity need is not permanent

Reducing labor costs while maintaining levels of production

High turnover rates for the position

HOW IT WORKS

NSC has decades of experience connecting companies with highly skilled workers in the marine, construction, industrial, and professional and technical industries. We source, sustain, and retain the highest-caliber talent possible through the following services:

Contingent Labor

We provide outsourced, non-permanent workers, who are hired on a per-project basis to help during business fluctuations, allowing you to save on hiring, training, workers compensation, and payroll expenses.

Temp-to-Hire

Our temp-to-hire service offers an employer the ability to vet a potential employee to see how they operate on-site before hiring them as a full-time employee.

Direct Hire

NSC has experienced recruiters from coast to coast who know the market, salary expectations, and talent pool available to help you identify the right candidate and provide a compelling offer.

Payrolling

NSC acts as the employer of record – managing all payroll expenses such as taxes, unemployment, and worker’s compensation to mitigate risk.

Managed Service Provider (MSP)

Our approach as a Managed Service Provider (MSP) provides a streamlined, vendor-neutral, timely, cost-effective, and on-demand staffing solution by scaling workforce supply to suit your organizational needs.

On-Site Services

We offer customizable on-site services with a dedicated on-site staffing manager responsible for sourcing, selecting, hiring, and managing large contingent workforces’ day-to-day activities.

Workforce Development

We see success as an outcome of investing in people. Our powerful workforce development services heighten your associates’ productivity, safety, and prosperity in the workplace – underscoring our vision to improve the quality of life for individuals and communities – and bring greater value to your business.

THE BENEFITS

Gain Access to Top Talent	Scale on Demand	Reduce Employee Costs	Mitigate Workforce Risks	Boost Productivity
Tap into a geographically dispersed talent pool curated by an experienced workforce solution provider and expand your team’s capabilities with the specialized skills you need to get work done.	Gain the flexibility to support interim high-volume staffing needs, whether supporting large projects or busy seasons, without imposing layoffs when workloads subside.	Avoid adding the hiring and training costs, expensive benefits and paid time off, and long-term financial commitment of permanent employees to the overall cost of a project with a finite lifespan.	Reduce your organization’s liability with a trusted staffing partner that builds in safety training, ensures worker’s compensation, compliance, and provides clear contracts that result in excellent outcomes.	Allow full-time employees to focus on day-to-day work demands while leveraging contingent labor as the need arises for any given project—increasing the overall organization’s output.
